

ELITE Awards Entry Form – Irrigation Management Category Questionnaire

1. Project name
2. Project/program location. Please provide at least city and state.
3. What water provider services the project area, and were there any requirements/restrictions were in place.
4. Is this a residential or commercial property?
5. Provide a short project description of no more than 250 words. This should be no more than 3 sentences in length and should be a condensed version of the project description.
6. Define the problem/scope of the job/situation.
7. What was the impetus for this project? How did this need come into focus; was it brought to your attention by the customer or was this a recommended change made by your company?
8. What was your recommended solution(s)?
9. What recommendation(s) was approved by the customer?
10. Was the problem due to inefficiency or general over-consumption?
11. When did this project start (upgrades/changes)?
12. How long has your company been maintaining the site?
13. Were there any gallons per square feet goals set by the water provider that you needed to meet? If so, what were they?
14. What was the ROI on the project? Provide any applicable data – decrease in gallons used, percentage decrease, etc.
15. How did you maintain the health and aesthetic qualities of the landscape while improving irrigation efficiency?
16. How did the changes made to the irrigation system change the existing landscape and elements?
17. Is the irrigation tap separate from the domestic water supply? If not, you will need to establish and provide a baseline for indoor consumption.

Submit 10 photos of the project that show distribution uniformity, some heads and nozzles, controller, site and anything else that shows the changes/upgrades you made.
